A'DESIGN AWARD & COMPETITION 2020-2021

Art-Design-Object, Mondrian lamp combines the concept of modernity with the specific aesthetics of the 20th century. The name leads us to its inspiration, the painter Mondrian, and the movement of Neo-plasticism, with the search for clean elements, reduction of forms and pure lines. This lamp has a different view on its four sides taking advantage of the interaction and harmony created by the six colors used for this composition.
